Rabbit Class

Autumn Term 2 2026

Here is more detail about what we will be learning in Rabbits Class over the next ½ term.

In **English**, we will be writing a letter using the book 'A River' to support us with this writing.

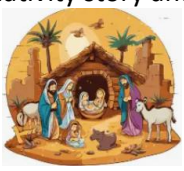

This book explores various landscapes through poetic texts. Our grammar teaching will focus on suffix, adverbs and plurals. As well as challenging children to expand their sentences using subordinating conjunctions and expanded noun phrases.

Science: in our unit 'Materials', pupils will identify and compare the suitability of a variety of everyday materials, including wood, metal and plastic. Pupils will be asking questions and testing their hypothesis in different ways.

Geography: in this unit, we explore the question 'why do people live near volcanos?'. Pupils will be able to name the 4 layers of the Earth and describe how volcanoes are formed and classified.

RE: our focus is on Christianity this term, looking at the nativity story and what this teaches us about Jesus.

Maths: we will be finishing our addition and subtraction unit, including learning about 3 digit numbers and money. We will then move onto multiplication. Year 3 will gain an in-depth understanding on the 4 and 8 times tables. And Year 2 will secure their understanding on the 2, 5, 10 and 3 times tables.

Life skills: we will explore the question 'how can we look after our bodies?'. Children will develop an understanding of how everyday choices support health and wellbeing by exploring the effects of movement, sleep, food and drink on the body.

Computing: in computing we will be learning about creating media, including stop-frame animation.

Music: In this unit, pupils use minibeast names to rehearse and compose simple four beat rhythms by clapping, chanting and performing on untuned percussion. They use minibeast images to order and repeat these rhythms.

PE: Michelle will continue to work with the children on creating and perfecting their own gymnastics routine. Mr Reeve will continue his PE lessons on Wednesday. The PE sessions will focus on team-building games.

DT: this term we are looking at pneumatic toys. Children will be investigating how compressed air can create movement within a mechanism.

French: In this unit 'seasons' pupils will learn the 4 seasons of the year along with 2 phrases for each season in the foreign language.

Please continue to support your child by discussing the books they are reading.

Thank you for your continued support.

	Monday	Tuesday	Wednesday	Thursday	Friday
8.45- 9.00 Registration	EMW – times tables				
9-9.30 Session 1	Spellings/Handwriting	Spellings/Handwriting	Spellings/Handwriting	Spellings/Handwriting	Spellings/Handwriting
